I read your book. Great read! Loved the animation. Great story telling and thank you for telling this story and allowing myself to gain some clarity and reassurance that I needed as well. The way that you lead and emphasis on kindness is raw. I'm not sure what's stopping me from providing myself with positive affirmations daily but that's something to think about.

So powerful and inspiring for our youth

Reviewed in the United States on July 27, 2024

This book is such a major game changer in inspiring our children to not only do better within, but also gives them the powerful tools (affirmations) to encourage them to be a greater version of themselves in and out and believe in themselves. They are not invisible and for a child to know this is everything in their development and heart. The author has given our youth a blessing and that is encouragement within self. Absolutely love reading this book to my nephews and having them say their affirmations and creating new one.
